SUMMARY DISCUSSION OF CLASSROOM/LIBRARY OBSERVATIONS

1. What do you see as the purpose of your observations?

2. How do you feel your observation skills grew from experience to experience?

3. Did you get “better” at determining the objectives for each lesson?

4. Which kinds of instructional methods did you see that you think you will incorporate into your own teaching?

5. How will your observations help you gain credibility as a teacher AND connect with the teachers in your setting?

6. What are some strategies you will be able to use to encourage teachers to integrate information skills into their teaching?

7. What are some strategies you will be able to use to integrate content learning into your library lessons?

8. What management techniques did you see that you will be able to use in the library setting?

9. Where do you see yourself fitting into the curriculum?
