iSchool Illini Success 2017-2018

School of Information Sciences First Destination Report

The report includes students who graduated in August 2017, December 2017, and May 2018. The data came from several verifiable sources. The vast majority of data came from the campus-wide survey, which invited graduates to provide information about their post-graduation status at regular intervals for six months following their graduation. In addition to the survey, data were also gathered from college reports and a limited use of graduates' LinkedIn profiles. The graduating class consisted of master's students in the Library and Information Science and in the Information Management programs.
Please note, the salaries listed below are greatly influenced by profession, previous educational backgrounds, and previous pre-professional and professional experience.

2017-2018 Graduates	LIS Graduates	IM Graduates
Number of Graduates	250	60
Primary Status Respondents	193	43
Response Rate	77%	72%
