Glenview, IL 60025

Phone: 847-650-9706

## SUMMARY

- A well-established information science and technology instructor with over eleven years of experience teaching undergraduates and graduates in top iSchool programs
- An accomplished courseware developer with over seventeen years of experience in the development of new courses for higher education and industry
- A highly-experienced practitioner with a demonstrated ability to share valuable workplace insights with students and mentees

## EXPERIENCE

Jan 2014 - Present

***School of Information Studies (SOIS), University of Wisconsin – Milwaukee, Milwaukee, WI***

**Senior Lecturer** [Jan 2014 – Present]

- Teach students in the BSIST, MSIST, and MLIS programs.
- Students are pursuing a wide range of careers in information technology and LIS fields.
- Courses taught include *Systems Analysis, Introduction to Application Development, Database Information Retrieval Systems, Senior Capstone, Web Development Using Web Application Frameworks, User-Centered Interaction Design, XML for Libraries, and Introduction to Information Science.*
- Courses are delivered in a face-to-face on-campus format as well as an asynchronous online format.
- Proposed and developed 2 new graduate-level courses.
- Redesigned and re-developed 3 existing undergraduate-level courses.
- Currently revising programming and database courses to include hands-on coverage of Apache Spark using PySpark and Spark SQL.
- Serve as a Course Coordinator for 2 courses.
- Member of the [Knowledge Organization Research Group \(KOrg\)](#).
- Member of the MSIST Curriculum Committee.
- Past member of the Academic Planning and Budget Committee.

Jun 2008 - Present

***School of Information Sciences, University of Illinois at Urbana-Champaign, Champaign, IL***

**Adjunct Senior Lecturer** [Jun 2008 - Present]

- Teach students from Undergraduate Minor, MSIM, MSLIS, CAS, and PhD programs.
- Students are pursuing careers in data science, information technology, and LIS fields.
- Courses taught include *Systems Analysis, Foundations of Information Processing, Database Design and Prototyping, Web Development Using Application Frameworks, and Project Management.*
- Supervised independent studies for several MSLIS students.
- Proposed and developed 2 new graduate-level courses.
- Have taught an average of 4 courses per year during the last 12 academic years.
- Most classes delivered in a synchronous online format.
- Taught face-to-face on-campus courses in 3 summer semesters.

**Assistant Director, Center for Informatics Research in Science and Scholarship (CIRSS) [Feb 2009 – Aug 2011]**

- Served as project coordinator for 3 funded research projects, including the Data Conservancy Project — a \$20 million cyberinfrastructure project funded by NSF for which the Illinois portion was over \$3 million.
- Coordinated the e-Research Roundtable and CIRSS Seminar Series.
- As coordinator for the Data Curation Education Program (DCEP), advised students in the Data Curation Specialization.
- Made significant contributions to the project management, analysis, design, and development of several Web development projects.
- Developed budgets, forecasts, variance analyses, and other financial reports for projects as well as continuing research center operations.
- Monitored compliance with University policies relating to finance, human resources, and the Institutional Review Board (IRB).
- Responsible for day-to-day business operations of the research center including the recruiting, hiring, and supervision of up to 15 graduate and undergraduate research assistants.

May 2002 - Present

**Principal Consultant, Ligent, Glenview, IL**

- Current involvement is limited to delivering technology training courses during university summer breaks. For a major insurance company, teach bootcamp-style classes to groups of newly hired computer science graduates. Topics include intermediate and advanced Java, object-oriented design, design patterns, continuous integration, test-driven development, and agile development.
- Prior involvement included developing and delivering courses in project management, systems analysis, data modeling, relational database development, and Topic Maps technologies. Courses taught also included a variety of other information technology topics including Java, JEE, XML, XSLT, XSL-FO, HTML, CSS, and JavaScript.

May 1999 – Apr 2002

**Vice President, Tier Technologies, Technology Training Division, Itasca, IL**

- General manager responsible for marketing, sales, operations, and curriculum development for an information technology training division with annual revenue greater than \$6 million.
- Led this division through its acquisition by a publicly traded company.
- Led portions of an extensive management consulting study for a major health insurer.

May 1977 – May 1999

**Automated Concepts Inc., New York, Chicago, Itasca (IL)**

**Executive Vice President and Principal, Technology Training [Nov 1996 - Apr 1999]**

- General manager responsible for marketing, sales, operations, and curriculum development for an information technology training division with annual revenue greater than \$6 million.
- Led the development of new curricula for networking and Web-based applications.
- Member of the Board of Directors.

**Chief Operating Officer and Principal [Jun 1994 - Nov 1996]**

- General manager of this national information technology consulting company with annual revenue greater than \$40 million.
- Managed a workforce of more than 400 people.
- Member of the Board of Directors.

**Executive Vice President and Principal, Chicago Region [May 1984 – May 1994]**

- General manager responsible for sales, marketing, operations and practice development for a regional information technology consulting office with annual revenue greater than \$15 million.
- Led the development of new practices in networking, document imaging, and Web-based applications.
- Managed a staff of more than 160 people.
- Member of the Board of Directors.

**Technical Director, Chicago Region** [Jun 1982 - May 1984]

- Responsible for all program and project management.
- Adopted formal project management practices including the use of the Earned Value Management (EVM) technique that dramatically improved the financial performance and timely completion of client projects.
- Responsible for resource planning and management for more than 60 consultants.

**Consultant/Senior Technical Manager** [May 1977 - Jun 1982]

- Led a variety of information technology projects in banking, insurance, manufacturing, and retail, as well as state and local government.

May 1976 - May 1977

**Programmer, Prudential Insurance Company, Holmdel, NJ**

## EDUCATION

May 2009 - Dec 2010

**University of Illinois at Urbana-Champaign, School of Information Sciences**  
Summer Institute for Data Curation, Foundations of Data Curation, Digital Preservation

Sep 1979 - Jun 1982

**University of Chicago Booth School of Business, MBA, Finance and Marketing**

Sep 1971 - Jun 1975

**Rutgers University, BA, Philosophy**

Equivalent of a minor in Computer Science, Cum Laude, Phi Beta Kappa, Jacob Cooper Prize for Logic

## CERTIFICATIONS

Mar 2005

**Project Management Professional (PMP)**
