

# iSchool Illini Success 2021

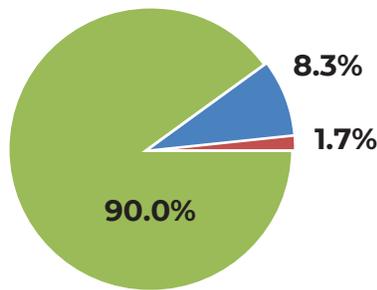

## Master's in Information Management (IM) First Destination Report

The report includes students who graduated during the 2020-2021 academic year. The data came from several verifiable sources. The vast majority of data came from the campus-wide survey, which invited graduates to provide information about their post-graduation status at regular intervals for six months following their graduation. In addition to the survey, data were also gathered from college reports and a limited use of graduates' LinkedIn profiles. The graduating class consisted of master's students in the Information Management program.

Please note, the salaries listed below are greatly influenced by profession, previous educational backgrounds, and previous pre-professional and professional experience.

### IM Post-Graduate Status

60 Post-Graduate Records

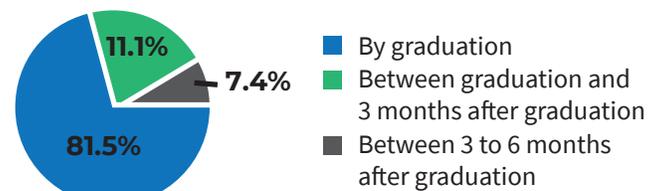

**90% secured a first destination**

- Employed
- Seeking employment
- Working part-time

### When Respondent Received First Job Offer

27 Respondents

- By graduation
- Between graduation and 3 months after graduation
- Between 3 to 6 months after graduation

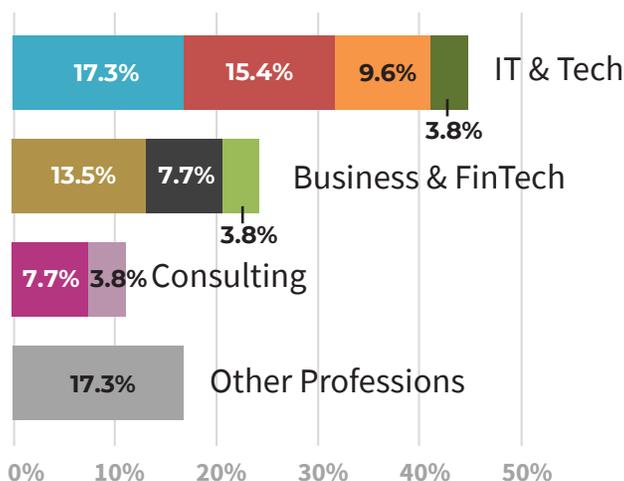

### IM Knowledge Rates

Graduates	126
Primary Status Respondents	60
Survey Completions	63
First Destinations Response Rate	50%
Knowledge Rate	50%

**Knowledge rate** is the amount of information collected about post-graduate outcomes (employment, continuing education, etc.) collected through the First Destinations Survey, student communications, and social media, compared to the overall count of graduates for this period.

### Select IM Graduate Employment by Industry
