

iSchool Illini Success 2018-2020

Master's in Information Management (IM) First Destination Report

The report includes students who graduated during the 2018-2020 academic year. The data came from several verifiable sources. The vast majority of data came from the campus-wide survey, which invited graduates to provide information about their post-graduation status at regular intervals for six months following their graduation. In addition to the survey, data were also gathered from college reports and a limited use of graduates' LinkedIn profiles. The graduating class consisted of master's students in the Information Management program.

Please note, the salaries listed below are greatly influenced by profession, previous educational backgrounds, and previous pre-professional and professional experience.

IM Post-Graduate Status, 2018-2020

249 Post-Graduate Records

96% secured a first destination

- Enrolling in Additional Education
- Seeking Employment
- Employed
- Engaged in Military Service

When Respondent Received First Job Offer, 2018-2020

83 Respondents

IM Knowledge Rates, 2018-2020

Graduates	335
Primary Status Respondents	165
Post-Graduate Data Entries	252
First Destinations Response Rate	49%
Knowledge Rate	75%

Knowledge rate is the amount of information collected about post-graduate outcomes (employment, continuing education, etc.) collected through the First Destinations Survey, student communications, and social media, compared to the overall count of graduates for this period.

Select IM Graduate Employment by Industry, AY 2018-2020
