

## **Summer Research Assistantship (25%, two months)**

### **Environmental Scan of Computational Arrangement and Description in Archives**

Review of applicants will begin immediately. Please apply by June 1 for strongest consideration.

Start Date: Thursday, June 16, 2022

In this project, we are exploring recent work using computational techniques for the purposes of arrangement and description of archives materials. The research assistant will contribute to a report listing and describing each project, evaluating the state-of-the-art, gaps, and future needs.

This is a 25% appointment for 2 summer months (June & July).

Tasks of the research assistant include:

- Conducting literature searches and reviews
- Systematically coding documents for themes related to archival concepts
- Analyze published projects for technical features
- Read and discuss relevant research literature
- Other research duties as assigned, including proofreading, bibliographic management.

Approx. 80% of the time will be working independently, and 20% of the time in meetings with Professor Maemura.

Students will be paid according to current iSchool assistantship rates. Contact hiring faculty member for specifics.

To apply for this position, please email a resume and cover letter to Dr. Emily Maemura (emaemura@illinois.edu).
